

LAURA RODRIGUES

Computer Science degree

PROFILE

Computer Science student at the University of Minho, where I specialized in Artificial Intelligence and Computer Graphics. I have developed a special interest these as well as Front-end Development.

I aim to continue working in the Computer Graphics industry and pursue a career in this field.

I have good communication skills and interpersonal abilities, and I am always ready to learn.

EXPERIENCE

Intern at Pluggable AI

Since 2023

Professional Internship as a full-stack developer and Machine Learning Engineer.

Intern at Checkmarx Braga

2023

Summer Internship with the SEG development team.

Altice Fórum Braga

2022

Event Support team. This has brought me a lot of experience to work with the public.

Volunteer at ADAAVV (Vila Verde's animal shelter)

Since 2021

Cleaning, events and social media and adoptions management. These experiences have given me the sensitivity to handle various challenging situations.

Volunteer at Idade Mais (caregiver services for seniors)

2015 - 2020

It allowed me to develop social skills that helped me learn how to deal with people in various psychological and physical conditions.
